

# Results and Destinations

As a small, nurturing school, we are so much more than our exam results. We want our children to love their school experience, take part in extra-curricular events and develop lifelong friendships and the confidence to tackle whatever next steps they choose to undertake.

Each child has their own journey to achievement and we are proud of all the students that we have worked with, who, without exception, have attained their own personal best.

We are delighted to share the external examination results from recent years.
