

## SHERRARDSWOOD SCHOOL

### POLICY ON SPECIAL EDUCATIONAL NEEDS (SEN)

This policy also applies to EYFS pupils

1

- 1.1 This school provides a broad and balanced curriculum for all children. The National Curriculum is our starting point for planning that meets the specific needs of individuals and groups of children. When planning, teachers set suitable learning challenges and respond to children's diverse learning needs. Some children have barriers to learning that mean they have special needs and require particular action by the school.
- 1.2 These requirements are likely to arise as a consequence of a child having special educational needs. Teachers take account of these requirements and make provision, where necessary, to support individuals or groups of children and thus enable them to participate effectively in curriculum and assessment activities. Such children may need additional help or different help from that given to other children of the same age.
- 1.3 Children may have special educational needs either throughout or at any time during their school career. This policy ensures that curriculum planning and assessment for children with special educational needs takes account of the type and extent of the difficulty experienced by the child.
- 1.4 The Disability Discrimination Act identifies the fact that some pupils with disabilities may have learning difficulties that call for special educational provision. However, not all children defined as disabled will require this provision. A child with asthma or diabetes, for example, may not have special educational needs, but may still have rights under the Disability Discrimination Act.

## 2 Aims and objectives

- 2.1 The aims and objectives of this policy are to, wherever possible:-
  - create an environment that meets the special educational needs of each child;
  - ensure that the special educational needs of children are identified, assessed and provided for;
  - make clear the expectations of all partners in the process;
  - identify the roles and responsibilities of staff in providing for children's special educational needs;
  - enable all children to have full access to all elements of the school curriculum;
  - ensure that parents are able to play their part in supporting their child's education;
  - ensure that our children have a voice in this process.

## 3 Educational inclusion

- 3.1 In our school, we aim to offer excellence and choice to all our children, whatever their ability or needs. We have high expectations of all our children. We aim to achieve this through the removal of barriers to learning and participation. We want all our children to feel that they are a valued part of our school community. Through appropriate curricular provision, we respect the fact that children:
  - have different educational and behavioural needs and aspirations;
  - require different strategies for learning;
  - acquire, assimilate and communicate information at different rates;
  - need a range of different teaching approaches and experiences.

### **3.2 Teachers respond to children's needs by:**

- providing wherever possible, support for children who need help with communication, language and literacy;
- planning to develop children's understanding through the use of all their senses and of varied experiences;
- planning for children's full participation in learning, and in physical and practical activities;
- helping children to manage their behaviour and to take part in learning effectively and safely;
- helping individuals to manage their emotions, particularly trauma or stress, and to take part in learning.

## **4 Special educational needs**

4.1 Children with special educational needs have learning difficulties that call for special provision to be made. All children may have special needs at some time in their lives. Children have a learning difficulty if:

- they have significantly greater difficulty in learning than the majority of children of the same age;
- they have a disability which prevents or hinders them from making use of the educational facilities that are provided for other children of the same age.

4.2 Many of the children who join us have already been in early education. In some cases, children join us with their needs already assessed. All children are assessed when they enter our school, so that we can build upon their prior learning. We use this information to provide starting points for the development of an appropriate curriculum for all our children.

4.3 If our assessments show that a child may have a learning difficulty, we use a range of strategies that make full use of all available classroom and school resources. This level of support is called School Action. The child's class teacher will offer interventions that are different from or additional to those provided as part of the school's usual working practices. The class teacher will keep parents informed and draw upon them for additional information. The Special Educational Needs Coordinator (SENCO), if not already involved, will become involved if the teacher and parents feel that the child would benefit from further support. The SENCO will then take the lead in further assessments of the child's needs and make appropriate recommendations.

4.4 We will record, in an Individual Education Plan (IEP), the strategies used to support the child. The IEP will show the short-term target set for the child, and the teaching strategies to be used. It will also indicate the planned outcomes and the date for the plan to be reviewed. In most cases, this review will take place once a term.

4.5 If the IEP review identifies that support is needed from outside services, we will consult parents prior to any support being actioned. This may lead to additional strategies or strategies that are different from those used in School Action. This enhanced level of support is called School Action Plus. External support services, if they are involved at this stage, will provide information for the child's new IEP. The new strategies in the IEP will, wherever possible, be implemented within the child's normal classroom setting.

4.6 If the child continues to demonstrate significant cause for concern, a request for statutory assessment will be made to the LA. A range of written evidence about the child will support the request.

4.7 In our school, there are two SENCOs: one for Lockleys House (Foundation Stage, Key Stage One and Key Stage Two) and one for Mimram House (senior students Years 7—13).

Each SENCO has responsibility for their area of the school and:

- manages the day-to-day operation of the policy;
- co-ordinates the provision for and manages the responses to children's special needs;
- supports and advises colleagues;
- oversees the records of all children with special educational needs;
- acts as the link with parents;
- acts as the link with external agencies and other support agencies;
- monitors and evaluates the special educational needs provision, and reports to the Headmistress;
- manages a range of resources, both human and material, to enable appropriate provision to be made for children with special educational needs;
- contributes to the professional development of all staff.

## **5 Allocation of resources**

- 5.1 Each SENCO is responsible for the operational management of the specified and agreed resourcing for special needs provision within their area of the school, including the provision for children with statements of special educational needs.
- 5.2 The Headmistress informs the governing body, via the Bursar, of how the funding allocated to support special educational needs has been employed.
- 5.3 The Headmistress and the SENCO meet when required to agree on how to use funds directly related to statements. The SENCO draws up the resources bid when the school is planning for the next school development plan.

## **6 Assessment**

- 6.1 Early identification is vital. The class teacher informs the parents at the earliest opportunity to alert them to concerns and enlist their active help and participation.
- 6.2 The class teacher and the SENCO assess and monitor the children's progress in line with existing school practices. This is an ongoing process.
- 6.3 The SENCO works closely with parents and teachers to plan an appropriate programme of support.
- 6.4 The assessment of children reflects as far as possible their participation in the whole curriculum of the school. The class teacher and the SENCO can break down the assessment into smaller steps in order to aid progress and provide detailed and accurate indicators.

## **7 Access to the curriculum**

- 7.1 All children have an entitlement to a broad and balanced curriculum, which is personalised to enable them to:
- understand the relevance and purpose of learning activities;
  - experience levels of understanding and rates of progress that bring feelings of success and achievement.
- 7.2 Teachers use a range of strategies to meet children's special educational needs. Lessons have clear learning objectives; we personalise work appropriately, and we use assessment to inform the next stage of learning.
- 7.3 Individual Education Plans, which employ a small-steps approach, feature significantly in the provision that we make in the school. By breaking down the existing levels of attainment into finely graded steps and targets, we ensure that children experience success. All children at both School Action and School Action Plus levels have an IEP.

- 7.4 We support children in a manner that acknowledges their entitlement to share the same learning experiences that their peers enjoy. We do not withdraw children from the classroom unless it is in their best educational interests. There are times, though, when to maximise learning, we ask the children to work in small groups, or in a one-to-one situation outside the classroom.

## **8 Partnership with parents**

- 8.1 The school works closely with parents in the support of those children with special educational needs. We encourage an active partnership through an ongoing dialogue with parents. The home–school agreement is central to this. Parents have much to contribute to our support for children with special educational needs.
- 8.2 We have regular meetings each term to share the progress of special needs children with their parents. We discuss with parents any outside intervention, and we share the process of decision-making by providing clear information relating to the education of children with special educational needs.

## **9 Pupil participation**

- 9.1 In our school, we encourage children to take responsibility and to make decisions. This is part of the culture of our school and relates to children of all ages. The work in the Foundation Stage recognises the importance of children developing social as well as educational skills.
- 9.2 Children are involved at an appropriate level in setting targets in their IEPs and in the termly IEP review meetings. Children are encouraged to make judgements about their own performance against their IEP targets. We recognise success here as we do in any other aspect of school life.

## **10 Monitoring and review**

- 10.1 The SENCO monitors the movement of children within the SEN system in school. The SENCO provides staff and Headmistress with regular summaries of the impact of the policy on the practice of the school.
- 10.2 The SENCO is involved in supporting teachers involved in drawing up Individual Education Plans (IEPs) for children. The SENCO and the relevant line manager hold regular meetings to review the work of the school in this area.
- 10.3 The named Governor for Special Educational Needs is the Chair of Education, Mrs Gena Edwards.
